In PiL and on line > DIRECTORY find:

- Latest planning performance statistics for all London boroughs
- Planning Advice: where to find specialist consultants
- Listing of all London Borough planning and environment departments and other useful contacts

NPPF Implications for London - what next?

A Planning in London magazine Seminar

Hosted by Berwin Leighton Paisner, Adelaide House, London Bridge, London, EC4R 9HA on **Friday 25th November 2011, 8:30 - 11:30**

The new National Planning Policy Framework sets the background to all planning decisions. Most controversial has been the presumption in favour of sustainable development where new local Neighbourhood Plans don't exist. What are the implications for London where new neighbourhood groups are making their power felt? How are local authorities managing the emerging relationships? This is a technical seminar for all those working in the built environment, with views from local group leaders.

Join us for this special **Planning in London** seminar which will bring together key protagonists from government and the market to debate and discuss the impact and opportunities being created by the reforms for everyone in the industry

The programme will cover;

- How are new neighbourhood forums and neighbourhood plans emerging in London?
- Understanding the different approaches and relationship between neighbourhood plans and local plans?
- Will neighbourhoods be able to achieve their goals, or will the NPPF stand in the way?
- Will neighbourhood plans overlapping with a BID?
- What happens if there is no neighborhood or Local Development Framework in place?
- Do developers think the new system will work?
- Will we get better development?

Booking details DELEGATE PLACE PRICE £89.00 + VAT
